

**Inauguration of High Power LASER Unit in Physiotherapy Department by
Director and Medical Superintendent Dr.A .K.Gadpayle on 23.11.16**

Physiotherapy Department, Dr. RML Hospital has become the first Central Government Hospital in New Delhi to have procured High power LASER Therapy Unit for treatment of Musculoskeletal disorders. The new LASER unit “Optonpro” is manufactured by Zimmer Medizin System, Germany. It is a class IV solid state diode based, dual wavelength laser with peak power 7000 mW which makes it 14 times more powerful thus reducing the treatment sessions and time. It gives infrared laser in wavelengths of 810 nm and 980 nm. The former causes biostimulation whereas the latter is useful for thermal effects. The same was inaugurated by Director and Medical Superintendent, Dr.A.K.Gadpayle on 23.11.16 in Physiotherapy department. Many senior faculty members graced the occasion with their presence.
